

SSCM Project February 2010:

This project continues to be a wonderful resource and success for those enrolled. Many of the guardians of YTH and PATH centers have made use of either hairdressing, wood work or metal work training to improve their income and home situations.

Last year all 36 students were employed in their field of training before they graduated. All metal work students were hired by the company that is owned by Sheraton Hotel Addis owner. They are excited to be part of this growing business.

This year's enrollment has been increased to 76 students. Their hopes are for the same results as last year. This is a wonderful program for YTH or PATH students who are looking for a vocational training program, and unable to attend university.

The SSCM Center Library continues to fill an important role in the community as a place to study for local school children and students of SSCM.
